“Capture the Memories”

Free Family History Templates

A short time ago Holly Hansen, President of My Ancestors Found, generously gave me permission to share thirteen (13) family history templates and five (5) other helpful files that provides additional instructions and tips.

Holly Hansen and Jennifer Johnson created and used these “Capture the Memory” templates to assist others in preparing and printing various kinds of family history.

I think you will be very impressed with both the content and comprehensiveness of each template.

I have configured the templates so that you can download the install file which will then automatically place each of the Word files into a group called, “History Templates.”

You will need the latest version of Heritage Collector to take advantage of this wonderful benefit.

You may download the installation file from our Registered Users Website at:

<http://heritagecollector.com/support/Registered/supportfiles.htm>

Click on the link "Capture the Memories."

Holly has an excellent website that provides many family history resources.

I would encourage you to visit her website:
